

CIVIL ENGINEERING DEPARTMENT LEAD ENGINEER

DEPARTMENT: ENGINEERING

REPORTS TO: PRINCIPALS & VICE PRESIDENT

JOB DESCRIPTION:

MBC Management is committed to *Growing Together* through our core values of upholding heritage and integrity, delivering quality craftsmanship, prioritizing a customer-driven approach, and committing to community.

We are seeking a highly skilled and motivated Lead Engineer who thrives in a family-centric, locally rooted, design-build environment. The Lead Engineer will be responsible for managing site, drainage, and grading and various concrete structural projects. This role involves leading new development projects and collaborating effectively within our design-build team.

Given MBC's role as a Design-Build and General Contracting firm, the Lead Engineer will engage in direct field interaction with construction operations to ensure seamless project execution.

JOB TASKS:

- Manage and oversee Consulting design projects & client engagement.
- Lead site, drainage, and grading design efforts.
- Head new development projects and collaborate with Design-Build team.
- Handle a diverse range of projects, spanning public and private sectors.
- Engage in direct field interaction with construction operations to support continuous construction activities.

REQUIREMENTS:

- BS in Engineering, or any applicable degree program.
- PE Licensure and 5+ years of industry experience, managerial preferred.
- Strong planning, organizational, and communication/ writing skills.
- Understanding of design-build project design and execution.
- Understanding of Prime Design Firm management, and sub-consultant coordination
- Computer Skills: Microsoft Office, Autodesk, CAD, Civil3D, Revit.
- Valid Texas drivers' license and meet company's auto insurability requirements.

We are looking for a dedicated professional with a strong background in civil engineering and a passion for leading innovative projects within a dynamic, design-build environment. Our company offers opportunities for employee ownership, enabling team members to invest in and benefit from our collective growth and success. If you meet these qualifications and are eager to make a significant impact, we strongly encourage you to apply.
